From the Principal’s Desk

Dear Parents/Carers,

Excursion Permissions
Just to clarify that we require a signed permission form for all excursions other than our own activities around the farm or locally in the Hagley village. Several classes have excursions planned during the next few weeks. Please ensure you return the form before the day of the excursion.

Class Swimming Program
Many thanks to those parents who have volunteered their time to support this program.

Guy Barnett visits
The Member for Lyons and Parliamentary Secretary Mr Guy Barnett visited recently to view the proposed works to improve the Environment/Visitor centre. $100 000 has been allocated as part of the Agricultural Education Centre of Excellence project. Funds will become available mid-next year to address maintenance issues and improve facilities. We had 4500 student and 900 adult visitor days last year to our Farm and Environment Centre. Guy is also the Chair of our Friends of the School group.

Kind Regards,

Mick

**Friendship patterns in the primary school years**

Children choose friends who have similar interests and enjoy similar activities. During primary school close friendships are most often with a child of the same sex. This is related to children’s preferences in play.

Boys tend to prefer active kinds of play in groups, whereas girls typically prefer gentler games in pairs or threes and use talk more than action. Such preferences may be especially strong around the ages of eight and nine when many children become more aware of social expectations regarding girls’ and boys’ behaviour.

These expectations can create difficulties for boys who are interested in gentler kinds of play and for girls who prefer the kind of active play that is usually associated with boys.

Friends cooperate and communicate more with each other than with other children. They also have conflicts more often, but usually manage to settle them without upsetting the friendship. Friends influence each other’s behaviour. Over time they may take on similar mannerisms, language and preferences. Although friendships usually have positive effects, friends who have behavioural problems may encourage problem behaviour in one another.

As children’s interests and developmental needs change, their friendship patterns may also change. By the middle of primary school it is common for children to form small friendship groups based around similar interests. These groups often establish their own rules about who can join them. Setting rules and learning to negotiate them is important for helping children to develop their understanding of social relationships. However, when children lack cooperative relationship skills it can lead to friendship groups being dominated by some children and excluding others.

More information on the subject of friendships and much more can be found at www.kidsmatter.edu.au

DAIRY AUSTRALIA COMPETITION—START AND END YOUR DAY WITH DAIRY

Our school has entered this competition and shortly we will be encouraging staff and students to bring in their (washed!) dairy product lids or packets which will act as a voting token; you simply place these in the box which indicates when during the day you have eaten/drank them. There are some great prizes to be won:

- One of five custom-built playground bench seats (MADE from your recycled dairy products!)
- A special school visit from a Legendairy farmer
- An abundance of delicious dairy products for your school!

We will let you know when our collection boxes arrive, but until then start collecting those lids, yoghurt containers etc.

P&F SHOPPING NIGHT—THIS THURSDAY NIGHT 7-9pm

Get a start on your Christmas shopping or just buy some goodies for yourself. A great selection of stalls will be there on the night!! So grab a friend or two and head to school on Thursday night, support your school community and have a fun night out at the same time.

I hope to see lots of you there
